SKILLS

Programming languages:

Python, MYSQL, C, C++, HTML, CSS, JS(Beginner), JAVA

Memberships:

- iStart Member
- IEEE Member
- ISTE Student Member
- Student Ambassador at Microsoft

EDUCATION

B.Tech - Information Technology

KNOWLEDGE INSTITUTE OF TECHNOLOGY, Salem

SEP 2024 - MAR 2028

CGPA: 8.6

12 - Grade

SAGAR INTERNATIONAL SCHOOL, Erode

JUN 2023 - MAR 2024

MARKS : 412/500

10 - Grade

SAGAR INTERNATIONAL SCHOOL, Erode

JUN 2021 - MAR 2022

MARKS : 410/500

CERTIFICATION'S

NPTEL Certified – Internet of Things (IoT)

Successfully completed the Internet of Things (IoT) certification, gaining knowledge in IoT architecture, sensors, communication protocols, embedded systems, and real-world IoT applications.

NPTEL Certified – Cloud Computing

Successfully completed the Cloud Computing certification, gaining knowledge in cloud architectures, virtualization, resource management, service models, and modern cloud-based technologies used in digital infrastructure.

Course Completion – CSS3 - Infosys Springboard

Successfully completed the CSS3 course on 11 February 2026, gaining proficiency in modern styling techniques, responsive web design, layout systems, and front-end development best practices.

Course Completion – JavaScript - Infosys Springboard

Successfully completed the JavaScript course on 19 January 2026, developing proficiency in core JavaScript concepts, problem-solving techniques, DOM manipulation, and foundational web development skills.

Course Completion – HTML5: The Language - Infosys Springboard

Successfully completed the HTML5: The Language course on 29 January 2026, gaining knowledge of HTML5 fundamentals, semantic elements, web page structuring, accessibility standards, and front-end development best practices.

RECOGNITION'S

1st Place – Idea Pitching Competition

iStart Incubation Cell | National Startup Day

Presented an innovative startup idea and secured first place, demonstrating creativity, problem-solving, and entrepreneurial thinking.

1st Place – Outstanding Student Award (2025–2026)

Department of Information Technology, KIOT

Received the First Place Outstanding Student Award in recognition of academic excellence, technical achievements, leadership, and active participation in departmental activities during the academic year 2025–2026.

 2nd Place – Web Development Hackathon

Excel Engineering College, Komarapalayam

Secured second place by developing a responsive web application within a limited timeframe, recognized for its creativity, functionality, and user-friendly design.

 2nd Place – Proto Expo, CREANNOVA'25

Salem College of Engineering and Technology

Presented the project “Face Recognition System for Smart Attendance”, an AI-based attendance automation solution using facial recognition technology. Secured 2nd place and won a **cash prize of ₹600** at the National-Level Technical Symposium CREANNOVA'25.

 2nd Place – Non-Technical Event

Salem College of Engineering and Technology

Secured second place in a non-technical competition and won a **cash prize of ₹300**, demonstrating creativity, teamwork, and effective problem-solving skills.

 Finalist – Code Sangram Hackathon

Alliance University, Bengaluru

Advanced through Phase 1 and Phase 2 to secure a place among the finalists. Presented an innovative solution featuring a structured workflow and user-centric UI/UX, receiving valuable feedback from industry experts.

 Paper Presentation – Cyber Security Awareness for Teenagers

Thiagarajar College, Madurai

Presented a paper on cybersecurity awareness, highlighting safe online practices, digital security measures, and responsible internet usage for teenagers.

 Coordinator – National-Level Technical Symposium

Knowledge Institute of Technology (KIOT), Kakapalayam

Coordinated and managed event activities, supporting the successful planning and execution of a large-scale national-level technical symposium.

Participant – Project Presentation, Entrepreneurship & Quiz Events

Kongu Engineering College, Perundurai

Participated in project presentation, entrepreneurship, and quiz competitions, enhancing technical knowledge, innovation skills, and entrepreneurial awareness.

Industrial Visit – Irohub

Kochi, Kerala

Participated in an industrial visit to gain practical exposure to software development workflows and insights into Python, React JS, and Flutter technologies used in modern application development.

Project – Smart IoT-Based Water Leakage Detection & Notification System

Idea Lab

Designed and developed an IoT-based monitoring system to detect water leakage in server rooms and send real-time alerts, enhancing equipment safety and minimizing potential infrastructure damage.

Participant – FOSSEE Arduino Day 2026 (College Edition)

IIT Bombay

Participated in Arduino Day 2026 on 25 March 2026, gaining practical exposure to Arduino programming, embedded systems, hardware interfacing, and open-source electronics development.

Participant & Presenter – ITEF Professional Development Conference & Exposition 2025

International Tamil Engineers Forum (ITEF), Chennai Trade Centre

Presented on “Blockchain and its Role in Supply Chains” and gained insights into emerging technologies, sustainable engineering practices, and industry innovations through interactions with professionals and experts.
